

EMMA MOYSTNER

UX/UI DESIGNER

emmamoystner.design@gmail.com | 865.617.9721 | [linkedin.com/in/emmamoystner](https://www.linkedin.com/in/emmamoystner) | Portfolio: emmamoystner.design

PROFESSIONAL SUMMARY

UX/UI Designer with 4+ years of freelance and enterprise experience. Completed an M.Des in Interaction Design (ArtCenter, August 2026). Healthcare-focused, with capstone and graduate work in clinical and patient-facing experience design. Delivers user research, information architecture, wireframes, high-fidelity mockups, interactive prototypes, and WCAG AA audits.

EDUCATION

ArtCenter College of Design

Master of Design, Interaction Design

Pasadena, CA | August 2026

Tennessee Technological University

Bachelor of Science, International Business and Cultures | Minors: Spanish, Religious Studies

Cookeville, TN | May 2021

RELEVANT PROJECTS

NAV Health, ED Patient Experience

M.Des Capstone, ArtCenter | May - Aug 2026

- Designed a capstone project on the emergency department patient journey from arrival and triage through discharge, targeting the information gaps that drive patient anxiety and erode trust in care.
- Interviewed 4 patients and care-team members and surveyed 18 more; delivered journey maps, experience principles, and a written research report.
- Translated research into information architecture, service touchpoints, and high-fidelity Figma concepts prototyped with Claude, surfacing wait status, care-team roles, and next steps to patients under acute stress.

Solace Health, Cross-Functional Systems Design

ArtCenter | Jan - Apr 2026

- Led human-centered framework design on a 4-person team in a simulated client engagement, against modeled impacts of 6-8 month delays and roughly \$1.5M in rework.
- Ran discovery interviews and surveys with 13 product, engineering, and design professionals at Meta, Netflix, and TikTok; delivered a research synthesis and a three-part system of rituals, decision frameworks, and tooling.
- Ran 2 rounds of moderated usability testing with findings reports, rebuilding the Figma prototype so users could see where information came from and stay in control of decisions.

COROS, Service and Interface Design

ArtCenter | Sep - Dec 2025

- Produced a frontstage/backstage service blueprint for a wearable health-tracking service, plus a competitive analysis across 4 competitor wearables.
- Designed onboarding, dashboard, and watch-face interfaces in Figma across mobile and wearable platforms, then completed and remediated against a WCAG AA audit (4.5:1 contrast, 44px targets, screen-reader labeling).

PROFESSIONAL EXPERIENCE

Freelance Designer and Creative

Self-Employed | January 2026 - Present

- Serve as lead experience and visual designer for small businesses, owning brand strategy, information architecture, and interface design from discovery through launch.
- Design and build accessible, responsive websites in Figma, Framer, and Claude, defining reusable type, color, and component systems and carrying them to a shipped product.

Project Coordinator

Barge Design Solutions | Chattanooga, TN | March 2022 - April 2026

- Designed an internal operations app, streamlining navigation and task execution for end users and administrators.
- Coordinated specification packages, invoicing, and construction administration across 50+ active projects in a regulated, documentation-heavy delivery environment.

SKILLS

Research: User research | Contextual inquiry | User and stakeholder interviews | Surveys | Moderated usability testing | Competitive analysis | Research synthesis | Personas | Journey mapping

Design: User-centered design | Information architecture | User flows | Service blueprints | Sketching | Wireframing | High-fidelity mockups | Interactive prototyping | Visual design | Design systems | UX writing

Accessibility: WCAG AA audits and remediation | Color contrast | Touch targets | Screen-reader-ready interfaces

Collaboration: Cross-functional collaboration with technical and business stakeholders | Agile workflows | Design critique | Presenting design rationale

Tools: Figma | Framer | Adobe Creative Suite | Miro | Claude (AI prototyping) | Squarespace | Shopify | SharePoint
